✓ Projects

- **ChatBot(Rule-Based + OpenAI API Trial)**
Collaborated in a 4-member team to build a custom chatbot using React.js with rule-based logic and initial OpenAI API testing.
Took lead on frontend development: implemented chat UI, input handling, and response flow using state management.
- **Weather Forecast Application**
Developed a web-based Weather Forecast Application using React.js that allows users to search for real-time weather updates of any city. The application fetches data from the OpenWeatherMap API and displays temperature, humidity, wind speed, and weather conditions in an intuitive user interface.
- **AI-Driven Recipe Sharing App ***
AI-Driven Recipe Sharing App | MERN Stack Project
Built a full stack web platform that allows users to search, post, and view custom food recipes. Implemented user authentication, secure recipe management, image upload, and personalized search features. Technologies used: React.js, Node.js, Express.js, MongoDB, JWT, REST APIs, Tailwind CSS.
